CONTROL NATURAL LIGHT & PRIVACY

BLINDS + GLASS

— An ODL Brand —

“Blink® Blinds + Glass provide unprecedented, industry-leading performance, quality and durability.”

Welcome to Blink®

Blink® Blinds + Glass are great for all bi-fold doors, casements and fixed panels. Sealed within the glazed units, blinds **stay clean and free of damage**. **No dusting, no tangled or hanging cords, no crimping or denting** and because they're protected between glass **they retain their 'like new' look over time** and with repeated use.

ENERGY EFFICIENT
Control the amount of solar heat gain

ODL has been the industry leader in the blinds-between-glass category for over 20 years and Blink® Blinds + Glass represent the best the sector has to offer. Blink® Blinds + Glass have undergone rigorous product testing, including 10,000 raise and lower cycles, UV stability tests and the slam test.

Advanced internal mechanisms ensure robustness and reliability. They are thermally efficient and there is a 10-year glass seal warranty for complete peace of mind. Over five million Blink® Blinds + Glass have been sold worldwide to date, demonstrating just how appealing the product is to the market.

Blink® Blinds + Glass

RAISE & LOWER BLINDS BETWEEN GLASS

Blink® Blinds + Glass provide privacy and light control at your fingertips with ultimate convenience. You never have to dust the blinds because they are sealed between two sheets of tempered safety glass.

- No dusting
- Easy to maintain
- Fingertip control
- Easy to operate
- Sealed between glass for energy savings
- Provides privacy and sunlight control
- Safe for children and pets
- Passes the toughest performance standards
- Tempered safety glass that is three to five times stronger than annealed glass
- Balanced slide and tilt operation

Safety conscious.
No exposed cords.
Child and pet friendly.

Advanced internal mechanisms ensure **reliability and robust durability**. Efficient force-to-lift ratio is designed for easy operation.
